**REQUEST FOR INTERFERENCE
WITH ANOTHER APPLICATION**

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of: DATTA, Debashish;
DANTU, Muralikrishna;
SHARMA, Pollepeddi
Lakshmi Narayana and
MISHRA, Brijkishore

Art Unit: TBA

Examiner: TBA

Serial No.: TBA
Filed: 25 September 2003
For: An Improved Method
for the Manufacture of
Ceftriaxone Sodium

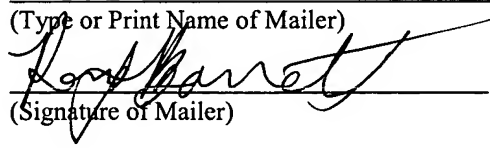

CERTIFICATE OF EXPRESS MAILING (37 C.F.R. § 1.10(a))

I hereby certify that this paper (along with any referred to as being deposited) was deposited with the United States Postal Service on the date shown below with sufficient postage as Express Mail with Express Mail Label No.: **EV 349097921 US** in an envelope addressed to the Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

Date: October 23, 2003

(Signature of Mailer)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

REQUEST FOR INTERFERENCE UNDER 37 C.F.R. § 1.604

Sir:

Applicants request that an interference be declared between the above-captioned application and application Serial No. 10/119,548, filed on April 10, 2002 and published October 24, 2002 (US 2002/0156272 A1). The proposed count of the interference is:

COUNT 1

A process for the production of a compound of formula

wherein X and R₁ are substituents useful in cephalosporin chemistry and R_E is hydrogen, a negative charge or together with the COO— group to which R_E is attached is an ester; comprising

i) reacting a compound of formula

wherein R is hydrogen or silyl, R'_E is silyl or together with the COO— group to which R_E is attached is an ester; and X is as defined above, with a compound of formula

wherein Y is halogen, Y' is a group which forms a basis that a compound of formula III is in a reactive form; and R₁ is as defined above, to obtain a compound of formula

wherein Y, X, R'_E and R₁ are as defined above;

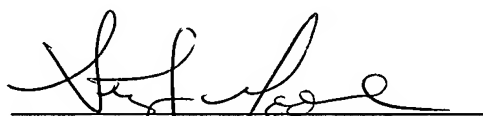

ii) desilylating a compound of formula II wherein Y, X, R'_E and R_I are as defined above, and
reacting a desilylated compound of formula II with thiourea in a solvent system
containing organic solvent and water; to obtain a compound of formula I.

Claim 18 of the above-captioned application and Claim 1 of application Serial No. 10/119,548 correspond to proposed Count 1. Claim 18 of the present application corresponds to Claim 1 of application Serial No. 10/119,548.

An interference is believed to be necessary because the same invention is being claimed in both applications and priority cannot be determined without an interference.

No fee is believed to be due. However, the Commissioner is authorized to charge any fees which may be required to Deposit Account No. 03-3975.

Respectfully submitted,

Steven J. Moore, Reg. No. 35,959
